Question: How will DHS notify me if I have a facially deficient Site Security Plan under the Expedited Approval Program?

Answer: Under the Expedited Approval Program (EAP), DHS has 100 days from the date of the submission to determine whether a Site Security Plan (SSP) is facially deficient. If DHS determines that the SSP is facially deficient, the Department will provide written notification to the facility that includes a clear explanation of each deficiency in the SSP.

6 U.S.C. § 622 (c)(4)(G)(i)
