

**FAQ Number:** 1759

**Date Published:** September 24, 2015 **Last Updated:** September 24, 2015

**Question:** I am the owner/operator of a facility that maintains Anhydrous Ammonia (AA), Ammonium Nitrate, Potassium Nitrate, Sodium Nitrate or any other Chemical of Interest (COI) at or above the Chemical Facility Anti-Terrorism Standards (CFATS) Screening Threshold Quantity (STQ) for commercial chemical application services. Is my facility eligible to claim the CFATS Agricultural Production Facility (APF) Top-Screen extension?

**Answer:** If your facility possesses COI at or above the STQ *for commercial chemical application services*, your facility is **not** eligible to claim the CFATS APF Top-Screen extension for such COI, and you must comply with the CFATS regulation by submitting a Top-Screen.
